## ● MAD SCIENCE:- June 1<sup>st</sup>- 5<sup>th</sup>

Everyday campers will explore, experiment and make different projects that they will get to take home and continue to learn at home.

**Space Travel:** Children will launch their investigation of rocket propulsion using the compressed air inside balloons for thrust.

**Detective Science:** Children use science to crack a case! The children examine fingerprints mystery powders, ink samples and teeth impressions.

**Slime Time:** The Mad science slime recipe is revealed in this ooey gooey chemistry class.

**Watts up:** Charge up on static electricity make indoor lighting and conduct hair-raising experiments with our electro-static generator

## ● ART STUDIO:- June 8<sup>th</sup>-12<sup>th</sup>

This week, campers will use different elements of art. They will unleash their inner artist.

Campers will explore a variety of art techniques while learning that creativity is for everyone and a fun skill to practice.

## ● IDEA LAB:- June 15<sup>th</sup>-19<sup>th</sup>

**Culinary Art:** Our young chefs will learn to bake, grill, mix, beat, fold

**Drone Engineering:** Our campers will learn Drone piloting School, Drone Aviation Principles, RC Drone and programming with Drones

## ● SPORTS WEEK:- June 22<sup>nd</sup>-26<sup>th</sup>

The campers will focus on individual skills, fitness and sportsmanship, providing an opportunity for children to be challenged through fun games and team interaction.

Children will also be introduced to competition in a developmentally appropriate manner.

## ● CODE NINJAS:- June 29<sup>th</sup>- 3<sup>rd</sup>

In our insanely popular Roblox camp, Campers will learn the basic of 3D game building and creative development on this fun, user-generated gaming platform. Using Roblox Studio, they will create much, more than just a game, they will create their own obby's and worlds!

## ● LEGO CHALLENGE:- July 6<sup>th</sup>- 10<sup>th</sup>

This giant collection of LEGO challenge is a simple prep, fun way to sneak some STEM (science, technology, engineering and math) learning into the day.

Little engineers will love tackling the designs.

Lego games are a great way to get your Lego loving children to think outside the box. These fun Lego challenges make a great indoor activity.

## ● BIG GAMES WEEK:- July 13<sup>th</sup>-17<sup>th</sup>

Campers will participate in friendly competitions and learn what it means to be a valuable teammate. Campers will share unforgettable experiences where everybody wins in a variety of challenges indoor and outdoor.

## ● THE JUNIOR CHEF:- July 20<sup>th</sup>-24<sup>th</sup>

Teaching your child to cook instills confidence and a sense of achievement when they prepare the perfect meal. There are several benefits of cooking with children. It increases their language development, enhances their fine motor skills, math, reading and increases their focus and attention.

## ● OUTDOOR EXPLORER:- July 27<sup>th</sup>- 31<sup>st</sup>

We believe that every child deserves a week in the great outdoors to be healthy, happy, active, unplugged and connected to nature. After a week of Outdoor Exploring campers will seek out adventures outdoors and develop a stewardship for the environment.

## ● SUMMER WRAP UP:- August 3<sup>rd</sup>-7<sup>th</sup>

This week will bring an end to our Summer Camp with a week-long celebration of memories, achievements and friendship. Each day involves a fun theme that presents everyone with countless ways to express themselves – whether it's crazy socks day or crazy hair day.
